## your warranty rights

This document sets out the Terms and Conditions of your Subaru New Vehicle Warranty provided by Subaru (Aust) Pty Limited (Subaru Australia).

Under the Subaru New Vehicle Warranty, Subaru Australia warrants (subject to the below Terms and Conditions) that if any part of your vehicle or a Subaru Genuine Accessory are found to be defective in factory materials or workmanship within the stated warranty period, it will be repaired, replaced or adjusted by any Authorised Subaru Retailer free of charge.

Please note that the Subaru New Vehicle Warranty does NOT cover Subaru vehicles or Genuine Subaru Accessories that have been acquired at auction or imported into Australia other than by Subaru Australia.

Any consequential, direct or incidental loss or damage is not covered by the Subaru New Vehicle Warranty. Any statutory or other rights or remedies available in connection with a claim for such loss or damage should be pursued separately.

## other rights

The Subaru New Vehicle Warranty applies in addition to the guarantees, rights and remedies conferred by the *Australian Consumer Law* and other applicable Commonwealth, State and Territory legislation. The Subaru New Vehicle Warranty does not exclude, affect or limit those guarantees, rights or remedies, except to the extent that their application may lawfully be excluded or limited.

In particular, our goods come with guarantees that cannot be excluded under the *Australian Consumer Law*. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

## no one does service like we do

Everyone at Subaru is committed to providing an ownership experience that's friendly, efficient and makes life easy for you. Real service, real support, real care. And with our Capped Price Servicing Program, you'll be in complete control on, off and beyond the road.

Properly maintaining your Subaru is important. So when it's time for a service, don't settle for less. Your investment in your Subaru doesn't just stop with your purchase. The Subaru Service Network and their factory-trained technicians are dedicated to helping you do more and get more out of your Subaru by preserving and enhancing the performance, safety and retained value of your car.

### Subaru Capped Price Servicing Program

All new Subaru vehicles purchased from 1 July 2014 enjoy the benefits of the Subaru 3 Year/75,000 Kilometre Capped Price Servicing Program (or in the case of BRZ, 3 Year/60,000 Kilometre Capped Price Servicing Program) giving you ultimate peace of mind in the knowledge that the maximum prices for your standard scheduled services are locked in for the term of the Capped Price Servicing Program. This means that you will know the maximum amount that you will pay for applicable scheduled services.

Subaru Capped Price Servicing is only available at participating Subaru Retailers and does not apply to rental and some other classes of vehicle. Please also note some exclusions apply, including in relation to the replacement of certain parts. For full Capped Price Servicing Program Terms & Conditions visit [subaru.com.au/service/capped-price-servicing](http://subaru.com.au/service/capped-price-servicing) or call **1800 22 66 43**.

### Your 1-Month Health Check & Chat

We understand that when you first take delivery of your new Subaru there's a lot to take in and remember. That's why we have introduced the 1-Month Health Check & Chat. It's a free service that's fast, convenient and easy. Our Service Network's expert technicians will undertake a couple of quick checks, such as your vehicle's fluid levels and tyre pressures, and a Subaru Service Consultant will answer any questions you have. It's just another way they can help you enjoy worry-free Subaru motoring - the best kind of all.

### Why Subaru service?

For lots of reasons. To keep your vehicle running like new, our Subaru Service Network have dedicated factory-trained technicians looking after it. They're Subaru experts who use and recommend Genuine Subaru Parts. They also use the very latest Subaru-specific diagnostic equipment and specialty tools.

The service schedule contained in this Handbook provides a general guide to the minimum requirements for safe operation taking into account normal Australian operating conditions and safety and emission requirements. When a vehicle is used under abnormal or severe conditions (eg extremely hot or cold weather) then more frequent servicing may be required. For more information please refer to the "Maintenance and Service" section in your Owner's Manual.

Your Subaru is an investment worth protecting, so follow your service schedule and enjoy driving your Subaru for years to come.

## your first month of driving

The performance and long life of your Subaru are dependent on how you maintain your vehicle over its life. Perhaps most importantly is the first month (1600 kilometres) of driving leading up to your 1-Month Health Check & Chat. Here are a few things you should try to avoid during this time (except in an emergency) to set yourself up to get the most out of your new Subaru:

- Avoid driving at one constant engine or vehicle speed for a long period of time, either fast or slow.
- For petrol engine models, do not allow the engine speed to exceed 4,000 rpm.
- For diesel engine models, do not allow the engine speed to exceed 3,000 rpm.
- Avoid hard braking.
- Avoid starting suddenly and rapid acceleration.
- Avoid towing a heavy trailer.

## between services maintenance

Even with scheduled servicing, your Subaru may need extra maintenance from time to time. You should also be aware that, as with most new engines, during the 'run-in' phase your vehicle's engine may consume a higher amount of oil than it usually would, and may therefore require regular oil top ups.

For this reason you should regularly check your vehicle's engine oil level (together with other fluids), especially during the run-in phase. In accordance with your Owner's Manual it's recommended that you check it at each fuel stop as insufficient oil and fluid levels could lead to serious engine damage.

If you're unsure how to carry out these checks, refer to your Owner's Manual or contact your authorised Subaru Service Centre for a demonstration at your next service.

## when to have your Subaru serviced

Dependant on your driving habits, you should be servicing your vehicle based either on time or distance, whichever occurs first. The recommended service interval for Subaru All-Wheel Drive models is every 6 months or 12,500 kilometres, whichever occurs first.

The frequency of scheduled inspection and maintenance services as outlined in the Maintenance Schedule for Normal Driving Conditions are the minimum requirements for safe vehicle operation.

However, it may be necessary that they be performed more frequently depending on driving habits, road conditions, weather, atmospheric conditions and vehicle usage.

The maintenance schedules in this Handbook have been established for Australian operating conditions, taking into consideration specific vehicle safety and emission requirements, and may vary from those printed in the Owner's Manual.

To determine if your vehicle should be serviced more regularly than as set out in this Handbook, talk your local authorised Subaru Service Centre.

**Warning:** Your vehicle has been certified regarding compliance with all relevant Australian Design Rules. As such it is illegal in most States to fit any replacement part or accessory which does not allow the vehicle to continue to meet with the requirements of the Australian Design Rules stamped on the compliance plate of this vehicle.

In servicing your vehicle, the use of approved parts and accessories will ensure that the original vehicle specification is maintained and that the vehicle continues to comply with all certification requirements, as well as meeting Government regulations relating to vehicle safety and environmental controls.

## the warranty period

The Subaru New Vehicle Warranty period commences on the date of first supply, delivery or registration of the vehicle, whichever applies first.

The Subaru New Vehicle Warranty period is 3 years (unlimited kilometres) for every Subaru vehicle (other than those used primarily as a taxi or hire, rental, or driving school vehicle). For Subaru vehicles used primarily as a taxi or hire, rental or driving school vehicle, the Subaru New Vehicle Warranty period is 3 years or 100,000 km, whichever occurs first. If the odometer reading for such vehicle has been altered and it is not possible to determine with certainty whether the vehicle has travelled in excess of 100,000 km, the Subaru New Vehicle Warranty period is deemed to have expired.

Replacement parts fitted by an Authorised Subaru Retailer free of charge during the Subaru New Vehicle Warranty period are warranted for the remainder of that period. Genuine parts and accessories fitted at the point of new vehicle purchase or fitted at the point of first scheduled service by your Authorised Subaru Retailer are warranted for 3 years. Genuine parts fitted anytime after the first scheduled service by your Authorised Subaru Retailer are warranted for 2 years. Genuine parts purchased in all other circumstances are warranted for 12 months.

## genuine parts and accessories warranty

Subaru Australia also offer a Manufacturer's Warranty over genuine parts and accessories imported and distributed by it. The terms and conditions of the Genuine Parts & Accessories Warranty can be found at [subaru.com.au/parts/warranty](http://subaru.com.au/parts/warranty).

## whats not covered by the Subaru new vehicle warranty

**Repair, replacement and adjustment under the Subaru New Vehicle Warranty are not available for deterioration, defects, faults or failures due to:**

- Ordinary wear and tear
- Use of non-recommended, inappropriate or dirty fuel, oil, fluids, lubricants, coolants, refrigerants or water
- Wear and tear caused by use of the vehicle for a purpose or under road or climatic conditions other than for which it was designed, including racing, rallying, speed trialing, hill climbing or similar activities or competitive events
- Any work carried out on the vehicle by a person other than an authorised Subaru Retailer
- Driver negligence, misuse or abuse, e.g. tampering, disconnection, loading or towing beyond the manufacturer's specifications, or continuing to drive the vehicle after loss of fluids, lubricants, oils, coolants, refrigerants or water
- A failure to maintain the vehicle, including its body trim and paintwork, in accordance with the manufacturer's recommendations, or the use of unsuitable agents, eg, unsuitable cleaning agents
- Accident, impact, fire, theft, illegal use or malicious damage by a third person
- Environmental conditions, including acid rain, industrial fall-out, salt, sand, stones, tree sap, bark or leaves, bird, animal or insect droppings or other damage, windstorm, hail, flood, lightning, or other acts of God.
- Modifications or alterations which have not been approved by the manufacturer, or the installation or use of non-genuine parts, accessories, equipment, assemblies or components
- A failure to have the vehicle serviced in strict accordance with the manufacturer's specifications and recommendations, or a failure to have the vehicle repaired promptly in accordance with such recommendations following an accident or other damage, or after a defect becomes known or is suspected

## items for which a charge may be made

The following list is a guide to the types of items that are ordinarily excluded from the Subaru New Vehicle Warranty, for which a charge may be made (unless the failure is caused by a defect in factory materials or workmanship, or a remedy is otherwise available under the consumer guarantees conferred by the *Australian Consumer Law*). The frequency of replacement, repair or adjustment will depend mainly on where your vehicle is driven, weather and atmospheric conditions, road conditions, your driving habits, and vehicle usage.

**Servicing:** - Lubrication and maintenance servicing and all parts and fluids replaced in line with the maintenance schedule in this handbook.

**Wheel alignment and wheel balancing:** - The frequency of these services depends on driving conditions such as rapid starts and stops, tyre skidding, hitting pot holes and curbs etc.

**Mechanical adjustments:** - Including brakes, clutch, door locks, engine tuning, drive belts, headlamps, steering gear are required as a matter of normal vehicle operation. This saves early or expensive replacements.

**Brake linings and clutch components:** - Are directly affected by driving habits and type of use and are wear and tear items. The replacement of brake linings and clutch components and the reconditioning of brake drums and discs should be performed as required.

**Spark plugs:** - Periodic replacement as listed in the service schedule is required to ensure maximum engine performance and best fuel economy.

**Fuel injectors and induction/combustion system:** - The removal of deposits and cleaning of injectors may be required from time to time and should be performed as necessary.

**Wiper blades:** - Will have a varied life expectancy. Replacement will depend on climatic conditions and extent of use.

**Paint, trim and other appearance items:** - Are affected by normal wear and tear and exposure to environmental conditions. Proper care as described in your Owners Manual can add to their appearance and durability. Damage or imperfection in paint or trim are normally apparent during pre-delivery inspection. You should report any imperfection to your Authorised Subaru Retailer immediately after purchase. A charge will be made for paint or trim items that require attention due to causes outside the manufacturer's control, including corrosion that occurs other than due to a defect in factory materials or workmanship, environmental conditions, and damage to trim and carpet.

**Tyres:** - Are ordinarily subject to wear. If the tyres suffer a major failure or are otherwise not of acceptable quality we will honour our obligations under the *Australian Consumer Law*.

**Batteries:** - The Subaru New Vehicle Warranty period on batteries is two years only.

**Body rattles and squeaks:** - After twelve months or 25,000 Kms., whichever occurs first, rectification of body rattles, squeaks, general tightening, adjustment of the fit of doors, bonnet and boot etc. will ordinarily be chargeable items.

**Suspension:** - Normal wear and tear of suspension and steering components such as shock absorbers, ball joints, bushes, driveshaft boots, etc.

**Lighting bulbs:** - Are subject to wear and tear and operational life depends on extent and method of use.

## where to go for warranty repairs

Take your vehicle to any Authorised Subaru Retailer if it needs repairs under the Subaru New Vehicle Warranty. All Authorised Subaru Retailers will honour the Subaru New Vehicle Warranty, and will be happy to repair, replace or adjust free of charge any part of your vehicle that is defective in factory materials or workmanship. Please note that Subaru Australia is unable to reimburse the cost of repairs carried out during the Subaru New Vehicle Warranty period by a repairer other than an Authorised Subaru Retailer except where express prior APPROVAL for those repairs has been obtained.

## recommended labour charge times<sup>1</sup>

Model / Service	Initial Service	A (hrs)	B (hrs)	C (hrs)	D (hrs)	E (hrs)	F (hrs)	G (hrs)	H (hrs)	I (hrs)	J (hrs)
WRX STI	N/A	1.0	1.0	1.25	2.0	1.0	1.25	1.0	1.5	2.5	4.0
Impreza, XV, Forester 2.0i, Forester 2.5i, Forester XT, Liberty 4-cylinder, Outback 4-cylinder, WRX and Levorg	N/A	1.0	1.0	1.25	2.0	1.0	1.25	1.0	1.5	2.5	1.5
Liberty 6-cylinder and Outback 6-cylinder	0.5	1.0	1.0	1.25	2.0	1.0	1.25	1.0	1.5	3.0	1.5
Forester and Outback diesel	N/A	1.0	1.0	1.25	2.25	1.5	1.25	1.0	1.75	2.0	1.5

<sup>1</sup> Figures shown are based on Subaru Australia's estimates of average times required to carry out relevant service. Times shown may slightly vary from Retailer to Retailer based on a wide variety of factors. Note: Lubricants, fluids, parts, etc. are charged for separately. Labour times effective July 2016.

## pre-delivery inspection schedule

Bonnet, release, lock, safety catch, alignment	Tyre pressures correct, including spare
Doors - open/close operation, alignment	Park brake lining adjust, if applicable
Door lock operation, central remote, if applicable	General under body, condition/security
Window operation, including power	Exhaust system, alignment, leaks, security
Window adjustment and alignment	Engine and transmission for leaks
Boot lid/tail gate - open, close, lock, alignment	Rear differential level, leaks
STI - fill water bottle for intercooler spray	Torque road wheel nuts
Fuel lid and cap - open, close and fit	Check and adjust wheel alignment
Steering column tilt mechanism	Engine cranking/starting/fast idle condition
Seat belt operation (buckle coupling)	Brake pedal - free play/reserve
Seat adjusters and fold down	Park brake operation, cable adjust
Headlight focus and all light operation	Check auto trans, ATF level (engine running in)
Interior, map, boot and vanity light operation	('P') auto inhibitor, selector lever operation
Windshield wiper and washer operation/position	Road test
Heated rear window operation	Engine performance
Insert memory fuse in main fuse box	Transmission operation (auto/manual)
Set clock and radio stations	Brake performance
Check radio, cassette, CD, aerial operation	Suspension performance
Check sunroof operation and alignment	Steering control, wheel 'centre' position
Disconnect transit connectors	All instrument operation
Brake fluid level, warning light operation	Clutch and hill holder operation, if applicable
Battery, level, terminals, installation, charge	Turn signal cancelling
Coolant, level, leaks, hose security	Cruise control operation
Engine oil, level, leaks	Heat/ventilation, air-condition operation
Manual transmission oil level	Check for abnormal and wind noises
Front differential oil level (auto)	Select monitor check
Fill windscreen washer bottle	Recheck levels for leaks
Clutch - function and adjustment	Electrical cooling fan operation
Drive belts, except cambelt, inspect and adjust	Clean exterior/interior & remove any protective agent
Fuel system leaks and security	Check for water leaks
All main electrical connections for security	Detail paintwork
Power steering level and leaks	Interior - check trims/parts for fit & condition
Remove disc rotor covers, if applicable	Check all exterior/interior equip. conforms to vehicle spec.
Brake lines, hoses for leaks and security	Ensure presence of spare key, literature, tools & jack
Suspension - security of components and damage	Check body condition and report defects
Steering rack, tie rods for security and damage	
Driveshafts and boots for damage	
Fuel lines and hoses for leaks and damage
